30 years on the market
Since 1991

More than 40 patents
In-house design

2500 customers
In 30 countries

Over 7600
Completed projects

We offer:

- 1 Packaging machines and weighers for any type of products for packaging into various types of bags;

- 2 Specialized equipment for packaging flour and fine-grained products in film and paper bags. In Russia, the most popular packaging is paper (craft) bag. We offer not only equipment, but also consumables in sufficient volumes.

- 3 Equipment for the production of semi-finished products: dumplings, stuffed patties, meat pastries.

- 4 Innovative technological lines for packaging of complex products such as: meat, fish, poultry, leafy greens, cottage cheese and many others.

Our equipment is used for packaging a variety of food products and industrial goods:

Small piece products

Vegetables, salads, fruits

Lose and powder like products

Frozen products

Milk product

Fragile products

Meat and poultry

Sea products

Industrial goods

Ready-to-eat meal

Dough products with filling

Stuffed patties

Our advantages:

30 years of design and development experience

Signal-Pack is an equipment manufacturing company with a history of more than 30 years that has resulted in the manufacture of thousands of units of equipment.

In-house software

Software is developed by our engineers. When buying equipment manufactured by Signal-Pack you get the custom tailored software product. All Signal-Pack software products are being tested

High quality and reliability of the equipment

Design is carried out by high-end professionals having decades of experience. Along with the use of modern powerful advanced software, this allows us to create truly unique equipment characterized by a high level of reliability and efficiency.

In-house full-cycle production

Software is developed by our engineers. When buying equipment manufactured by Signal-Pack you get the custom tailored software product. All Signal-Pack software products are being tested

Reliable service and technical support

Prompt and competent service is the most important focus area in the work of Signal-Pack. Our key objective is to ensure the highest possible level of machine reliability, reduce equipment wear and tear, and make it easy to use.
